

POINT-OF-SALE DEVICE INSTRUCTIONS AND CLOSING INSTRUCTIONS

Please print out these instructions so that you have them nearby while you're working.

1 Introduction

Your Ignatius Book Fair point-of-sale (POS) device will guide you through every step of your fair — from initial setup to tracking inventory, creating transactions, applying Ave Dollars, and finally closing out the fair. This document is designed to help you navigate the system with confidence. Inside, you'll also find several quick video tutorials that demonstrate the key functions you'll be using.

- Before your fair begins, we strongly recommend testing out the POS features so you're familiar and comfortable with the process.
- This instruction sheet can also be printed and kept at the cash station for quick reference during the fair.

Now that your books have arrived, you'll notice a smaller box labeled "OPEN FIRST." This box contains your POS devices.

Setup Steps:

- Carefully open the "OPEN FIRST" box.
- Locate your POS devices.
- Plug in the devices and allow them to charge for several hours before use.

Tip: *Make sure all devices are fully charged before your fair begins to ensure smooth transactions throughout the event.*

2 Powering On and Maintaining Your Devices

After charging is complete:

- On the POS machine, locate the round blue button on the right side and press it to power on.
IMPORTANT: *Be sure to charge both POS devices every evening during your fair. This helps prevent service interruptions caused by low batteries during transactions.*
- Connect all payment devices to the proper Wi-Fi signal in your building. Please ask to use the same Wi-Fi option that school administrators use, as that will offer the most stability and functionality.
- On your device, tap the settings gear in the lower right corner.
- Select Network & Internet.
- Make sure the Wi-Fi toggle is ON/blue.
- Choose the correct Wi-Fi network for your location.
- Enter your login credentials.

Troubleshooting Tips: If you are having trouble with your organization's Wi-Fi, try the following:

- Forget the current Wi-Fi on the device and reconnect.
- Use your phone's hotspot or another hotspot device to connect.
- Ensure your phone itself is not trying to automatically connect to a weak or problematic network via cellular connection.

If another school is currently logged onto the device, please log them out first. To do this, tap the menu button in the upper left corner of the screen and scroll down to "Logout" at the bottom. Once they are logged out, you can enter your unique code to log in.

3 Checking and Updating the Ignatius Book Fair App

- On the home screen, tap to open the Ignatius Book Fair app.
- In the upper left corner, tap the "hamburger menu" (three horizontal lines).
- Scroll to the bottom of the menu to check your app version.

NOTE:

- If your version is earlier than 3.8, you will need to update the app. If the "update" prompt appears, press it to perform an update.

4 If Needed: How to Uninstall and Reinstall the App

- Press the dot in the lower middle of the screen (the colorful home screen will appear).
- Press and hold (don't tap) the Ignatius Book Fair app icon until the "App Info" bubble appears.
- Tap "App Info" then "Uninstall App" (the app will disappear from your screen).
- In the lower left corner, look for the blue icon with a smiley mouth. Tap this icon to reinstall the Ignatius Book Fair app.
- When the installation finishes, press "Finish" (or "Finished").
- Open the Ignatius Book Fair app again.
- Go back to the hamburger menu, then check your version. If you are below version 3.8, you will have to perform one more update.

5 Logging In with Your Unique Code

- About eight days before your fair begins, you will receive an email with your unique login code.
- When you open the Ignatius Book Fair app on your device, you will be prompted to enter this code.
- Enter the code exactly as shown in the email to complete your login and access your school's fair.
- Check to make sure the name of your school is at the top of the payment device.

Tip: Keep this email handy (print it out or save it to your phone) so you can easily reference your code when logging in.

6 Sell Books and Other Items

Scanning items at checkout:

- On the menu screen, select "Scan Barcode or QR Code."
- Hold the device steadily and allow it to focus on the barcode.

Tip: If the barcode isn't reading clearly, use your other hand to shade the code from excess light or try holding the book vertically to adjust the angle.

If the scan doesn't work:

- If the barcode scans but the title does not appear: Tap the magnifying glass (upper right corner) and type in the title instead.
- If you cannot find the item by title: Tap the blue "barcode not scanning" link or enter the barcode numbers manually.

Price Adjustments

Is the price coming up different than what is on the book or item? You can perform a price adjustment in these circumstances by choosing the orange "update price" button under the quantity for the book you just scanned. This feature should only be used in limited situations when the price on the back of the item does not match what the payment device lists as the price.

Removing a Book from an Order

To delete a book from an order before the order has gone through, simply click “delete” under the title of the book you’d like to remove.

Refunds and Returns

If a customer needs to return a book — or receive a full refund on an order — follow these steps:

- On the home screen, tap the three lines (hamburger menu) in the upper left corner.
- Select “Order History.”
- Make sure the date range includes the day of the original order.
- Search for the order by either receipt number (POS number) or book title within the order.
- Choose the correct transaction.
- Choose the items within the transaction that will be returned.
- At the bottom of the screen, tap “Order Return.”
- Press “Confirm Return.”
- Print out a new receipt for the customer.

NOTE: Always verify you are selecting the correct transaction before confirming a return.

Issues with Receipts

If you’re having trouble with receipts, loading paper into your POS device is simple. Open the compartment, insert the roll with the paper feeding out of the top of the machine, and close it securely. The paper does not need to be threaded through anything; just make sure it is coming out of the top of the machine and close the door. Make sure the paper is positioned correctly so it prints smoothly, ensuring you’re ready for the next transaction without hassle. This is a thermal printer, so if the receipt is advancing out of the machine and there is nothing on it, the roll of paper likely needs to be turned around.

If the receipt is not printing:

- The receipt paper may be installed incorrectly, or
- A new roll may need to be started properly.

Please watch this quick video for step-by-step instructions on how to load the paper correctly.

7 Helpful Buttons on the Device

The payment device features helpful buttons for navigation and management. You can easily return to the previous screen, access the home screen, or clear transaction history. These functions make the device more user-friendly, allowing for quick corrections and efficient operation during busy sales or troubleshooting moments.

8 Last Copy Prompt and Procedure

When only one copy of a title remains, sell it to the customer, but keep it on display until the fair ends so others can see and order it.

- Fill in the prompt with the customer's full name (and phone number, if useful).
- Take payment, give the customer their receipt, and instruct them to pick up their item on the last day of the fair.
- A "Last Copy" receipt will print. Insert it into the book (sticking out slightly), then return the book to the table.
- Ensure the copy is distributed to the owner and not packed up or returned to the warehouse. It is either given to the customer on the last day or held for later pickup (call the customer as a reminder if needed).

Does the customer need the book right now? No problem, it's OK for them to take it and go. If someone else asks about the book, you can search for it on the payment device and order it for them that way.

9 Ship to School Prompt and Procedure

If the last copy of a book has already been purchased, customers can still order another copy directly at the payment device.

Steps for Processing a Ship to School Order:

- Scan the barcode of the book (or search by title).
- When prompted, enter the customer's full name. (A phone number works here too; this helps with contact at pickup.)
- Accept payment as usual.
- Let the customer know:
- Their order will arrive at your organization in about 14 business days.
- They may pick it up at your location, or volunteers can distribute the books when the order arrives.

Alternative Option for Customers: If the customer is not local or prefers not to wait for pickup:

- They can shop for the title online instead.
- By selecting your organization during sign-up, their purchase will still benefit your school — earning 30% back in Ave Dollars to purchase free books for classrooms and the library.

10 Printing the End of Day Report

You can generate an End of Day Report for your own record-keeping and billing purposes.

Steps to Print:

- From the home page, tap “End of Day Report” on the main menu.
- Enter the date you want to review.
- Tap “Print.”

What’s Included in the Report:

- A summary of the day’s transactions.
- The names of customers who paid by FACTS account (if your organization offered this payment method). This report is especially helpful for your organization to ensure the proper FACTS accounts are charged for the amounts due, since these are transactions you will have to do on your end.

11 Ready to Close Your Fair?

Closing Out Your Fair & Using Ave Dollars

The payment device will show you how many Ave Dollars you’ve earned. You can use these rewards to select free books for your library or classrooms at the end of your fair when you are done selling to the public.

Check Your Ave Dollars Balance

- On the home screen, tap the hamburger menu (three lines) at the top left.
- Select “Ave Dollar Estimate Report” from the drop-down menu.
- Review your available balance.

Handle “Last Copy” Books

Once your fair has ended and sales are closed:

- Gather all remaining “Last Copy” books and set them aside for distribution to the proper owners.
- Reach out to us if you need a spreadsheet containing the Last Copy list.

Select Books for Your Library/Classrooms

- Set aside the books you would like to keep for your library, classrooms, or RE programs.
- On the home screen, tap “End of Fair Closeout Procedures.”
- Follow the prompts to use your Ave Dollars credits toward these selections. For the customer’s name on these Ave Dollar copies, enter “Library” so you’ll know they belong to your school.
- If a title you’d like isn’t physically at the fair, enter the title into the search function to order it. These copies will be shipped to you with the other Ship to School books (approximately 14 business days after closeout).

Complete the Close-Out Process

- Be sure to finish close-out within three days of your fair's end date.
- This ensures your orders are processed quickly and your shipments arrive on time.
- Remember: Delays in officially closing the fair will delay your shipments.
- Once Ave Dollar purchases are complete, set those titles aside so they don't get mixed in with returns.

12 Packing Up Books and Materials for Return

When your fair is finished and you're preparing returns, please follow these guidelines to ensure everything arrives back safely to us:

Packing the Books

- It does not matter which boxes you use, but pack mindfully to avoid damage. Lay books flat in the box rather than standing them upright.
- Place the bindings toward the middle of the box so that if books shift during shipping, pages and covers won't get wrinkled or bent.
- Use leftover packing materials from the original shipment to cushion the books.

Gathering Display Materials

- Be sure to collect and return all metal book stands. You will have received 50 or 75, depending on the size of your fair.
- Wrap and protect these items with the original packaging materials, if possible.

Packing Devices and Final Count

Carefully pack up the payment devices along with their chargers and accessories. Once everything is packed, count the total number of boxes you'll be returning. This number will be needed when you complete the Return Form and schedule your UPS pickup.

Next, we will have you fill out a form that will prompt the warehouse to create your return labels and schedule a pickup of the remaining books.

- **Prepare the Details for Return:** Before filling out the form, make sure you know the number of boxes you're returning, as well as any relevant information (address of your organization, the email where the return labels will be sent, etc.).
- **Use this form** to include the necessary information so that return labels can be emailed to you: [Click here for the Returns Form](#)
- **Select a Pickup Date:** UPS pickups need to be scheduled 48 to 72 hours in advance, so please choose a date and time that works for a few days into the future. Ideally, select a time that allows plenty of time for the warehouse to create and email the labels and to schedule the UPS pickup.
- **Submit the Form:** Once all fields are completed, review the information and submit the form. This will initiate an email with the return labels and the UPS pickup scheduling process.
